

EARTH PREFERRED™

Canberra Earth Preferred™ products offer environmentally preferable solutions while still providing excellent cleaning efficacy. Products in the Earth Preferred program provide a healthier work environment and meet environmental requirements as defined by national third-party organizations such as the EPA.

Products with the EPA Safer Choice label help consumers choose products with safer chemical ingredients, without sacrificing quality or performance. Products must pass stringent criteria in order to earn the Safer Choice label. Ingredients, product performance, pH levels, and packaging are all reviewed to ensure that products are safer for you, your family and the environment.

NSF® International protects and improves global human health. NSF facilitates the development of public health standards and provides certifications that help protect food, water, consumer products and the environment.
