

# CREME CLEANSER

## HUSKY® 430

Mild, abrasive cleaner easily removes stubborn stains, rust, grease, soap scum and rubber heel marks. Effectively cleans a variety of surfaces in the restroom and food service areas. Leaves behind a pleasant mint scent. Safe to use on porcelain, ceramic and stainless steel surfaces. Micro-grit polishes as it cleans.

## Directions

- Apply directly to sponge, wet cloth or brush. Loosen soil and build-up with rubbing action. Rinse thoroughly. For heavily soiled areas, remove gross soil before cleaning.
- When cleaning stainless steel, always rub with the grain, not in a circular motion.
- On chrome fixtures and other polished metals, use gentle rubbing action. For a brighter shine, polish with a clean, dry cloth.
- Rinse after use.

Great for removing rust marks and bowl rings. Allow product to rest on the surface for a moment to increase the cleaning power.

## Specs

**Registrations:** NSF  
**Dilution:** RTU  
**pH Level:** 1.0-2.5  
**Color:** White  
**Fragrance:** Mint  
**Pack Types:** Quart, 5 Gallon, 55 Gallon
