

A photograph of a commercial kitchen. In the foreground, a stainless steel rolling cart with five shelves holds various items: a stack of white plates, a white bowl, a white plate, a stainless steel pot, and a stainless steel pan. The background shows a kitchen counter with a sink and faucet, a wall of green glass tiles, and a black and white checkered floor. A large white diagonal graphic element is overlaid on the left side of the image.

FACILITY CARE FOOD SERVICE GUIDE

WHY CANBERRA?

The task of choosing the right products to keep your facility clean and compliant as well as keeping your employees and customers safe should be simple. Trust the experts at Canberra to deliver a simple program that allows you to focus on the rest of your business.

- Industry experts to understand your pain points or “**Hot Button**” issues paired with packaging and chemistry experts to deliver the **right products**, in the **right packaging** to simplify how your staff keeps your facility clean.
- Sales and training staff to deliver **easy-to-use materials** to educate your team.
- Innovative packaging to **reduce storage concerns** and **reduce improper usage of chemicals**.
- Certified NSF® products to best serve customers and reduce the chance of foodborne illnesses, be **more efficient** and **help boost** overall health inspection scores.

Efficient **Program**, Efficiently **Clean**.

DESTINATION CANBERRA

ON-SITE TRAINING

Hands-on demonstrations and classroom learning from experienced sales managers and industry experts to take your job training to the next level.

ONLINE LEARNING

Take your training on the go! Your online source for intensive training to learn about proper cleaning techniques, procedures and product knowledge.

MATERIALS & SUPPORT

From webinars to wall charts and job cards, Canberra is prepared to best equip you and your team on products and procedures to increase on-the-job success.

HOT BUTTONS & SOLUTIONS

Canberra Corporation has created ideal solutions specifically for your facility. This program was built to reduce stress, misuse and deliver consistent results.

Clean restrooms help Food Service customers retain loyal business. 86% of adults equate the condition of the restroom to reflect the condition of the kitchen.

A comprehensive training program can help with food service employee turnover. The overall turnover rate in the restaurants and accommodation sector is 74%.

A simple, closed loop system is easy to use and provides consistent product performance. Help avoid costly inspection fines and violations.

FRONT OF THE HOUSE

A clean front-of-house is important because the cleanliness of your dining space affects how your guests perceive your business and whether they choose to become repeat customers. Make a great first impression with Canberra's Food Service Program.
