

DUO COMPLETE

HUSKY® 801

Clean and disinfect in one step with this ready-to-use disinfectant and sanitizer. Husky Duo Complete is EPA approved for use on food contact surfaces, without requiring rinsing. It can help reduce cross-contamination between treated surfaces and doesn't require the use of PPE. This formula deodorizes by killing microorganisms that cause offensive odors and leaves a long-lasting Cucumber Melon fragrance.

Disinfection Directions

Apply use-solution with a coarse spray device by spraying 6-8 inches from the surface. Do not breathe spray. Treated surfaces must remain visibly wet for 4 minutes. Wipe dry with a cloth, sponge or mop or allow to air dry. For visibly soiled areas, a preliminary cleaning is required. To disinfect food processing facilities: Spray surfaces with solution and allow to remain visibly wet for 4 minutes.

To Sanitize Food Contact Surfaces

1. Prior to application, remove gross food particles and soil by a pre-flush, or pre-scrape and, when necessary, pre-soak. A pre-clean step is required for food contact sanitization.
2. Apply use-solution thoroughly wetting surfaces with a coarse spray device by spraying 6-8 inches from the surface. Do not breathe spray.
3. Treated surfaces must remain visibly wet for at least 60 seconds followed by adequate draining and air drying. Do not rinse.

**Sanitizes Non-Food Contact Surfaces in 15 Seconds
and Food Contact Surfaces in as Little as 60 Seconds**

Specs

Registrations: EPA Registered Disinfectant
EPA Reg. No: 6836-445-8155
Dilution: 1:96
pH Level: 6.0 - 8.5
Color: Yellow
Fragrance: Cucumber Melon
Pack Types: RTU Quart

Features

- Cleans, Disinfects & Sanitizes
- Destroys 99.9% of Bacteria
- No Rinse Required
- Ready-to-Use Formula
- Kills SARS-CoV-2
- Helps Reduce Cross-Contamination
- Deodorizes

Recommended For

- Schools
- Childcare Centers
- Medical Offices
- Hotels
- Transportation Vehicles
- Cafeterias
- Restaurants & Cafes
- Offices
