

This highly concentrated, phosphoric based descaler is especially effective against lime, calcium, hard water and other scale from metal and plastic surfaces. Perfect for use in both high and low temp dish machines to help keep the tubing, jets and rinse arms clear of build-up producing a more effective clean. This product is also very effective at removing mineral deposits and rust marks off of other hard surfaces when properly applied.

**DIRECTIONS FOR USE:**

**Dish Wash Machines:** Dilute 8 ounces per wash tank, run machine for 10 minutes on the Delime setting. For best results close drain and use hot water. Rinse thoroughly and resume normal use.

**Drinking Fountains:** Dilute 1 ounce per gallon of water to remove hard water film and iron stains. Rinse with water.

**Aluminum/Metal Brightening:** Dilute 1 to 2 ounces per quart of hot water. Remove any loose soils. Start at bottom by applying product with brush or sponge. Agitate surface where necessary and rinse thoroughly. Always apply to small area first to determine proper concentration.

**NOTES:** Please read all directions on label before use.

**CONTAINS:** Phosphoric Acid (CAS 7664-38-2).

For more ingredient information visit: [canberracorp.com](http://canberracorp.com).

Chemical Hazard - Do not use on any surface that can be damaged by acidic materials. Many surfaces are not resistant to acid. Never use or mix with bleach or other cleaners or chemicals.
