

MaxSuds

HUSKY® 441

Husky® MaxSuds is an ultra-concentrated formulation for manual dishwashing. High-performance, long-lasting suds quickly removes grease, baked on food and food stains from utensils, flatware, glassware and pots & pans. Developed especially for high soil load capacity for hotels, restaurants, schools & institutions.

Directions

1. Turn the labeled detergent dispenser dial to fill sink number one. When filled, turn the dial to off.
2. Immerse pre-scraped items in dish soap solution and scrub if needed.
3. Rinse thoroughly with hot water in sink number two.
4. In a regulated three sink food service environment, follow with a sanitizer step in sink number three with Husky® S/V Disinfectant.
