

LIQUID STAINLESS STEEL CLEANER & POLISH

HUSKY® 481

Water-based polish that cleans, polishes, and protects stainless steel and a wide variety of surfaces without leaving an oily residue. Provides a protective coating that will resist fingerprints, grease and water spots. May be used for non-food contact surfaces in facilities operating under the Federal Meat and Poultry Products Inspection Program.

Directions

- Spray a small area until wet. Use sparingly.
- Clean with one cloth and polish with a clean, dry cloth. No rubbing is required.
- Do not use on cooking utensils.
- Avoid overspraying on floors as surfaces may become slippery.

For a high gloss luster, clean with one cloth then polish with a dry cloth.
