

### HUSKY®890

A concentrated, disinfectant cleaner developed specifically for veterinary and animal care facilities. Use to kill the harmful viruses and bacteria that are major concerns for any animal care facility.

## **Directions**

#### Disinfection:

- 1. For disinfecting, add 1 ounce of this product to one gallon of water.
- 2. Apply this solution with a mop, cloth, sponge, hand pump trigger sprayer, or low pressure coarse sprayer so as to visibly wet all surfaces thoroughly.
- 3. Allow surfaces to remain visibly wet for 10 minutes and then let air dry. Prepare a fresh solution for each use.

#### **Deodorization:**

- 1. Add 1 ounce of this product per gallon of water or equivalent dilution of water.
- 2. Excess material should be wiped up or allowed to air dry.

Kills SARS-CoV-2 in 60 Seconds

# **Specs**

EPA Reg. No: 1839-100-8155 **Dilution:** 1:128 or 1:32 pH Level: 11.5-12.5 Color: Dye-Free

Fragrance: Fragrance-Free Pack Types: Gallon, 55 Gallon

## **Features**

- that is effective against a broad spectrum of bacteria and is virucidal\* when used as directed.
- · Effective Against Canine Parvovirus, Feline Calicivirus & Bordetella bronchiseptica
- microorganisms that cause offensive odors

**Recommended For** • This product may be • Veterinarian used on washable. **Examination Tables** hard, non-porous surfaces: glass,

stainless steel, and

metal.

- Animal Washing & **Grooming Areas**
- Kennels

# **DISINFECTANT CLAIMS:**

- · Pseudomonas aeruginosa
- · Escherichia coli
- Klebsiella pneumoniae
- Salmonella schottmuelleri
- Streptococcus faecalis
- Shigella dysenteriae
- Klebsiella aerogenes
- Staphylococcus aureus
