

HUSKY® 1004 Ultra Gloss Floor Finish

Highly durable, high-gloss floor finish leaves a bright gloss right off the mop. Designed with advanced polymer technology, Apex provides maximum gloss retention for a long-lasting shine. Easily restored with a top scrub and recoat and can be burnished with high speed and propane equipment. Excellent scuff and black heel mark resistance. Repairs easily. Product is non-yellowing. Designed for all types of resilient flooring.

Directions

Initial Application

- 1. Remove all old wax and floor finish with appropriate stripper.
- 2. Rinse floor thoroughly and allow to dry.
- 3. Using a clean mop, apply a thin, uniform coat of finish. Allow to dry thoroughly (30-40 minutes). Apply additional coats in the same manner and let dry. For very porous floors, an initial coat of floor sealer is recommended.
- NOTE: To avoid product contamination, do not return any unused material to original container.

Day-To-Day Maintenance

- 1. Sweep or dust mop as necessary.
- 2. Damp mop with proper cleaner following label directions. For accumulated soil, lightly scrub as required.
- 3. After cleaning, burnish or restore floor as needed to maintain gloss.
- NOTE: Water or other foreign substances will cause any floor finish to become slippery. ALWAYS use a "Wet Floor" sign when moisture is present.
